

Aquagent® Volumetric KF Reagents

for samples with 0.1% - 100% water content

Volumetric Karl Fisher Titration for determining the water content in samples

Request your FREE samples:

1. New Formulation One-Component Scharlau Aquagent® Complet 5 (500ml)
2. Aquagent® Methanol Fast (500ml) for Faster Volumetric titrations 0.1% - 100% water content

More stable, more versatile, greater batch consistency, Pyridine Free.
SCARAQ00151000 will be replacing SCARAQ00031000.

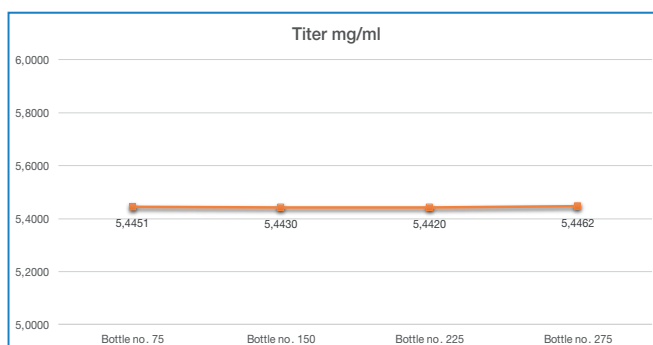

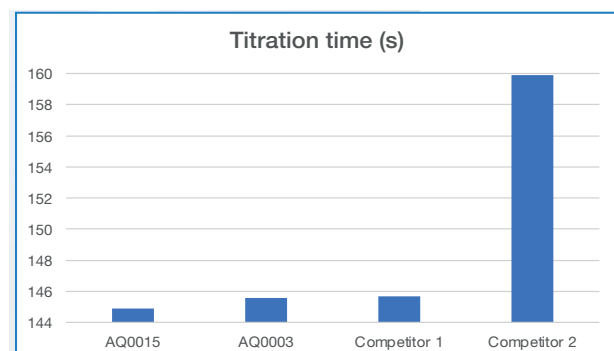

Description	Code	Price	Sale
Aquagent® Complet 5, free from pyridine, for volumetric Karl Fischer titration, 1L	SCARAQ00151000	\$148.30	\$127.00
Aquagent® Complet 5, free from pyridine, for volumetric Karl Fischer titration, 500ml	SCARAQ00150500	\$88.90	\$71.00
Aquagent® Methanol Fast, 1L	SCARAQ00111000	\$54.50	\$43.00
Aquagent® Methanol Fast, 500ml	SCARAQ00110500	\$32.70	\$26.00
Formamide, dried (max. 0.02% H ₂ O), for analysis, ExpertQ® (Karl Fischer), 1L	SCARFO00281000	\$133.10	\$105.00
Samples FREE of charge (1 of each per customer)			
Aquagent® Complet 5, free from pyridine, for volumetric Karl Fischer titration, 500ml	SCARAQ00150500		Sample F.O.C
Aquagent® Methanol Fast, 500ml	SCARAQ00110500		Sample F.O.C

Scharlau's new Aquagent® Complet 5 formulation offers a much more stable product over time, with less titer variation, even in already opened bottles.

Scharlab recommends using the new Aquagent® Complet 5 together with Aquagent® Methanol Fast to reduce stabilisation time, improve reaction rate and avoid the formation of precipitates when the solvent interacts with the sample. The use of both products allows the user to make more measurements with the same time and to obtain more reliable results.

Another important point when choosing a one-component Karl Fischer reagent is the titration speed. In the following table, we can see that the titration velocity of the new Aquagent® Complet 5 is one of the fastest on the market, improving on that of Scharlau's previous formulation.

Additionally, the new, more robust manufacturing process, allows Scharlau's to guarantee greater consistency between batches and within the same batch. Within a single batch, the titer for all bottles remains constant

Prices and discounts may be subject to change and only available while stocks last. Not valid with any other special offer or discounts and cannot be applied in retrospect. All prices in NZD excluding GST and local delivery charges. Products advertised may be for research use only (RUO) or in vitro diagnostic use (IVD).
