

New and Improved IKA RCT Basic

Only \$1,210

Usually \$1,425

Code: IKAA25006458

Newly Designed

Even more reliability

It has a powerful and maintenance-free EC motor.

The surface is made of tempered and shatterproof safety glass, making it resistant to chemicals and easy to clean.

The housing is made of fireproof and robust die-cast aluminum with high quality powder coating.

Thanks to its enclosed design (protection class IP42), it can also be used under extreme conditions in the laboratory, for example when stirring cold samples.

The electronic connections on the back of the device are protected by the special design.

Even more safety

Separate sensor for the safety temperature

Adjustable independent safety temperature

Hot surface warning

Confirmation mode

For the budget conscious...

Same great IKA quality, the first RCT basic magnetic stirrer still offers reliability and safety. A long lasting partner in your lab.
