

# Sarstedt Cuvettes

## Clear Results Start With A Clear Choice

3ml Semi-Micro  
Polystyrene

**Only \$15**  
Usually \$20  
100 items

**Only \$60**  
Usually \$80  
500 items

4ml Polystyrene

**Only \$12**  
Usually \$15  
100 items

4ml PMMA

**Only \$23**  
Usually \$28  
100 items

Sarstedt's cuvette range combines optical clarity with thoughtful design to support accurate and reproducible results across a variety of spectrophotometric applications.

Available in polystyrene (PS) and acrylic (PMMA), these disposable cuvettes are suited for measurements in the visible and near-UV ranges.

Choose from standard or semi-micro formats (for 90° angle fluorescence measurements) to match your sample volume requirements without compromising on performance.

Ref. Code: SARS-CURVETTE

Valid Until: 31 July 2025
