your lab needle
requirements

Glass Syringes are the Standard in Precision Measurement

Offering precision borosilicate glass syringes in volumes from 0.5 μ L to 2 L for chromatography, life science, and general liquid handling uses.

Top-quality materials and skilled workmanship ensure you get the highest possible performance from your Hamilton lab syringe for reliable analyses.

Hamilton Needles Point Your Work in the Right Direction

Manufactured from the highest quality materials, Hamilton needles are commonly used for even the most sensitive applications.

Choose from the most popular off-the-shelf needle configurations, or customize needles from the wide selection of hubs, gauges, lengths, point styles or materials to ensure you have the best tools for the job.
