Code: AZLOBWK009

The Azlon® large polypropylene basket with hinged lid is a tough, versatile solution for transporting, storing, and autoclaving lab items.

Made from durable, chemically resistant polypropylene, it's ideal for handling glassware, instruments, or waste across lab workflows.

The ventilated design ensures effective drainage and sterilisation, while the secure hinged lid keeps contents contained and protected.

Lightweight yet robust, this basket is a reliable workhorse for routine lab operations.

- Manufactured from polypropylene
- Autoclavable at 121°C
- Ideal for sterilising test tubes and other such laboratory items
- Useful for storage in the laboratory
- Tapered design supports stacking of baskets
