Code: SARS97.8710.500

Say Goodbye To Messy Water Baths

The Sarstedt Sahara III uses precise dry warming technology to deliver faster, cleaner, and more reliable serum separation.

Unlike water baths, there's no risk of contamination, no constant cleaning, and no waiting for warm up times. The Sahara III gives you consistent, reproducible temperatures across every bag — ensuring high-quality samples with minimal effort.

Why labs choose Sahara III:

- Dry > Wet – eliminate contamination risks and tedious bath maintenance
- Accuracy you can trust – uniform, controlled heating for reproducible results
- Time-saving – fast startup and efficient workflows.
- Hassle-free – compact, durable, and easy to use in any lab setting
