100 Capsules

Discreet and perfumed autoclave deodorant to freshen up your laboratory space.

Anabac® is used in laboratories where sterilization cycles, destruction of microorganisms, culture media, decontamination of materials are carried out.

- Compatible with any autoclave
- Biodegradable
- Does not impact the autoclave cycle
- Pleasant fragrances to improve the working environment
- Available in Eucalyptus, Apple, Lemon and Peach

Note: Additional ECOCERT-certified natural perfume variants are available in a 50 capsule pot (Coconut, Vanilla & Mimosa). Please reach out for pricing / additional information

Easy to use

1. During sample sterilization, bad smell can emerge from the autoclave.

2. Place one capsule in the water at the bottom of the autoclave or in a beaker of water.

3. After a sterilization cycle, the capsule melts, allowing the perfume to be released.
