

DO MORE WITH YOUR TIME THAN JUST COUNT CELLS

AUTOMATIC IMAGE ACQUISITION AND EASY ANALYSIS PROTOCOLS WITH A LAB FRIENDLY PRICE

ImageXpress Pico Automated Cell Imaging System

Intelligent cell imaging and analysis integrated in a single, affordable system

- Replace tedious manual microscopes
- Acquire and analyse your data within a few minutes of install
- Image samples within your own lab

Acquisition

Capture images automatically in brightfield, colorimetric, fluorescence, and live-cell modes

Analysis

Analyse data easily with preconfigured analysis protocols. View results in various formats - scatter plots, videos, etc.

Answers

Export and share data with built-in sharing and remote access capabilities
