### Ready-made Knock-In, Knock-Out and Reporter cell lines

Horizon's isogenic human cell line pairs provide a model system for the study of the role of genes in cellular processes and drug responses. All cell lines are provided with a matched wild type control parental cell line ensuring phenotypes can be attributed directly to the requested genetic modification(s).

- **Confidence** - each cell line is matched with an isogenic control to confirm your results
- **Reliability** - highly characterised and quality controlled clonal human cell lines
- **Convenience** - over 2500 edited cell lines in our catalogue ready to be delivered within only a few weeks
