

ImageXpress Pico Automated Cell Imaging System Laboratory Start-Up Package

Purchase before 30 June and receive a laboratory start-up configuration for under \$100,000.

Intelligent cell imaging and analysis integrated in a single, affordable system.

More than a digital microscope, the ImageXpress® Pico system combines imaging and powerful analysis for individual laboratories that need easy automated imaging solutions. With over 25 preconfigured cell imaging protocols available, the ImageXpress Pico system can be used for a variety of cell biology assays. With a simple step-by-step setup, images are automatically acquired and analysed while users can work on other tasks.

Get imaging quickly with the Laboratory Start-Up Package:

- Leica FLUOTAR 4x/NA 0.13 Objective
- Leica FLUOTAR 10x/NA 0.32 Objective
- Transmitted light capability
- FITC filter cube for fluorescence imaging
- Microtiter plate adapter and 4-slide adapter
- CellReporterXpress Software license – WITH 5 logins from a desktop AND 17 analysis modules (cell counting, scoring, apoptosis to name a few)
- System includes 1-year warranty covering parts & labour
