

Corning® Matrigel® Matrix on Sale

Corning® Matrigel® matrix for 2D and 3D cell culture applications.

Corning Matrigel matrix is a solubilised basement membrane preparation extracted from the Engelbreth-Holm-Swarm (EHS) mouse sarcoma, a tumour rich in extracellular matrix proteins, including Laminin (a major component), Collagen IV, heparin sulphate proteoglycans, entactin/nidogen, and a number of growth factors.

Corning extracellular matrices enable researchers to mimic *in vivo* environments for 2D and 3D cell culture applications.
