

Grant Stirred Waterbath Model T100-ST26

26-litre bath with immersion thermostat.

The Grant T100 series of general-purpose heating circulating baths offer accurate temperature control for straightforward applications in the range of 0°C to 100°C. For below ambient temperature control (down to 0°C), an optional cooling device is required. The T100 heating circulator can be used in combination with any Grant stainless steel or plastic tank or with a T-CLAMP for independent use of virtually any vertical sided tank. Our offer has the T100 combined to a 26-litre stainless-steel tank with bridge piece.

- Heating range ambient +5°C to 100°C (below ambient work possible with cooling unit)
- Stability $\pm 0.05^{\circ}\text{C}$
- Three programmable temperature pre-sets
- Low liquid protection and fixed over temperature cut-out
- Tank external dimensions: 535x335x265mm WxDxH
- 3-year warranty
