

Labplas TWIRL'EM ECOLO Bags

VALID UNTIL:
30 September 2020

Ref. Code:
LABP-TWIRL

Change to TWIRL'EM ECOLO leading the industry as the first green solution for all laboratories and Mother Nature

- ECOLO bags will degrade down to humus (biomass), CO2, methane and water in 9 months to 5 years depending on the landfill environment they come in contact with.
- Save money in transportation and storage space due to their light weight and low mass.
- Naturally sterile so no extra steps are required to ensure your sample is not contaminated from the container it is in. Sterility Certificate provided with every box.
- Choose from a range of sizes with the option of a printing area to write on.

Description	Code
