

ELGA Water Treatment Systems

Purchase a New Elga System and receive your first year FREE on a 3-year Preventative Maintenance Agreement! *

VALID UNTIL:
31 December 2020

Ref. Code:
ELGA-WATER

ELGA are the laboratory water specialists, working with scientists for over 80 years.

Elga Veolia is absolute specialist in the engineering, service and support of water purification systems. Dedicated to research and innovative product and solution design, Elga Veolia works closely with leading laboratory instrument companies to customise and develop solutions for specific requirements. Elga ensures your water purification systems are kept running 24/7 with no downtime.

MEDICA® Water purification systems for clinical diagnostics

The systems are designed to provide water to clinical analysers specified to Clinical Laboratory Reagent Water (CLRW) standard.

PURELAB® Water treatment system for laboratory application

Whether you need Type III water for simple routine washing or ultrapure (Type I) water for the most critical science and analytical applications – we can configure the right system for you.

BIOPURE® Water purification systems for healthcare applications

This product family is designed to deliver compliant purified water for a wide range of washer disinfectors, endoscope reprocessors and autoclaves.

CENTRA® Centralised laboratory water systems

Cost-effective water purification system. All-in-one solution for water-treatment, storage, control and distribution, producing up to 200 litres per hour.

** Travel cost, parts and consumables are not included.*

15% OFF all consumables!
1-week delivery time for most consumables
