

## AcroPrep™ 24-Well Filter Plates

### For protein purification and 0.2µm sterile filtration workflows.

#### New Innovation in a 24-well Format for Workflow Improvements

Pall Laboratory has two 24-well, 7ml, filter plates for use with protein purification and general sterile filtration workflows. Utilising Pall's proprietary high-performance multi-layer filter media and membranes, these plates offer time savings, strong performance claims and streamlined workflow improvements in a 24-well plate format. Each filter plate comes with a V-shaped bottom collection plate and lid.

#### Cell Clarification and Sterile Filtration Plate for Protein Purification Workflows

Pall's dual media clarification and sterile filtration AcroPrep 24-well filter plate can both clarify and 0.2µm sterile filter in a single device and workflow step. The top layer features Pall's Seitz® depth media and efficiently captures whole cells and cell debris. The lower Supor® EKV layer provides an efficient sterile filtration layer. The combination effortlessly recovers proteins from whole cell cultures with varying viabilities of up to 25M+ cells/ml in minutes using either a vacuum manifold or plate centrifuge.

#### 0.2µm Filtration Plate for Sterile Filtration Workflows

Pall's sterile filtration AcroPrep 24-well filter plate is well suited for plate-based sterile filtration needs such as for media, reagent, serum or proteins. Compatible with either a vacuum manifold or plate centrifuge, the filter plate utilises Pall's Supor® EKV membrane which is a dual-layer PES 0.65µm membrane integrated with a highly asymmetric 0.2µm membrane for fast, efficient, and sterilising grade filtration. The plate is tested to meet sterile *Brevundimonas diminuta* (Bdim) retention claims.

Description	Pack Size	Code
AcroPrep 24W Clarification Filtration Plate Sterile	2 Items	PALL97016
AcroPrep 24W Sterile Filtration Plate	2 Items	PALL97017
AcroPrep 24W Clarification Filtration Plate Sterile	8 Items	PALL97026
AcroPrep 24W Sterile Filtration Plate	8 Items	PALL97027
